Welcome, Journeyer!

I am honored and happy for this opportunity to work with you and look forward to helping you be well, work well, and do well by helping your body to let go of the energy that is no longer serving you in helpful and positive ways .

I'm so excited to partner with you on this leg of your journey and look forward to hearing about the many new and life-changing experiences you are creating for yourself!

What is energy therapy?

Integrated Energy Therapy (IET®) and Reiki energy therapy are gentle, hands-on energy techniques used for relaxation and stress reduction; they can be performed in person or, since energy is universal, they can be performed remotely (Distance Therapy). Practitioners believe that our physical, emotional, mental, and spiritual bodies retain energies from our experiences. IET® works with our 12-strand spiritual DNA and addresses nine cellular memory areas to adjust these retained energies by helping the body release negative energy and to restore the space with the energy's positive counterpart (ie safety replaces fear.) Reiki helps to balance the body's natural energy system by aligning the Chakra system and removing energy blockages.

Clients may or may not feel these shifts as they occur during the session. Clients may also experience warmth, a tingling sensation, lightheadedness, or an emotional release during a session. Clients often feel relaxed, balanced, as well as energetically and emotionally freer following the sessions.

What do IET® and Reiki do?

IET® and Reiki energy therapies help prepare the body for the work you are doing to realize your dreams, to live your best personal, professional, and philanthropic life, and to help you achieve your life purpose and soul mission with a little more ease by:

- 1) Promoting energetic balance
- 2) Fostering relaxation and reducing stress on the body
- 3) Clearing limiting energy blockages from the body

How does Distance Energy Therapy Work?

- 1) You (client) will choose a quiet place free from distractions where you may experience relaxation and interaction with your practitioner.
- 2) You will call 607-288-FIVE (3483) at the scheduled time; the line will remain open during the session to allow for pertinent interaction. You are responsible for all phone charges.
- 3) Though the above are the preferred methods, you also have the option of going about your day during the scheduled time and the practitioner will send a follow-up e-mail following the session.
- 4) Just as “Rome wasn’t built in a day,” your energy is comprised of many layers and years of conditioning. Subsequent sessions will help reach and release those limiting energy areas. We are continually exposed to negativity and loss; setting a maintenance program is like investing a million bucks in your Wellness account.
